Town Warrant

To D. W. Alexander, a Constable of the Town of Jay in the County of Franklin,

GREETING:

In the name of the State of Maine you are hereby required to notify and warn the inhabitants of the town of Jay, qualified by law to vote in town affairs, to meet at the Town House in said town on the third day of March, A. D. 1924, at ten o'clock in the forenoon, to act on the following articles, to wit:

ARTICLE 1. To choose a moderator to preside over said meeting.

ART. 2. To choose all necessary town officers for the ensuing year.

ART. 3. To see what sum of money the town will vote to raise to defray town expenses for the ensuing year.

ART. 4. To see what sum of money the town will vote to raise to defray pauper expenses for the ensuing year.

ART. 5. To see what sum of money the town will vote to raise for the repairs of roads and bridges for the ensuing year.

ART. 6. To see what sum of money the town will vote to raise for snow bills.

ART. 7. To see what sum of money the town will vote to raise for the support of common schools, including teachers' wages, janitor work and fuel, for the ensuing year.

ART. 8. To see what sum of money the town will vote to raise for the support of Free High School, including teachers' wages, janitor work and fuel, for the ensuing year, or act thereon.

ART. 9. To see what sum of money the town will appropriate for Free High School.

ART. 10. To see if the town will vote to provide conveyance for all pupils attending Jay High School from places two miles or more from said school, and what sum of money the town will vote to raise for this purpose.

ART. 11. To see what sum of money the town will vote to raise for repairs of schoolhouses for the ensuing year.

ART. 12. To see what sum of money the town will vote to raise for free text-books.

ART. 13. To see what sum of money the town will vote to raise for school supplies and miscellaneous bills.

ART. 14. To see what sum of money the town will vote to raise for the salary of Superintendent of Schools.

ART. 15. To see what sum of money the town will grant and raise to pay outstanding notes and interest on same.

ART. 16. To see what sum of money the town will raise for Memorial Day.

ART. 17. To see what sum of money the town will vote to raise for hydrants at Chisholm.

ART. 18. To see what sum of money the town will vote to raise for electric lights.

ART. 19. To see if the town will vote to instruct its Treasurer to hire money for use of the town.

ART. 20. To see if the town will vote "yes" or "no" on the question of appropriating and raising money necessary to entitle the town to State Aid as provided in Section 20 of Chapter 130 of the Public Laws of 1913.

ART. 21. To see what sum of money the town will vote to raise and appropriate for Article 20.

ART. 22. To see if the town will vote to raise the sum of five hundred dollars for the purpose of enabling the Niles Memorial Library Association to maintain a free public library.

ART. 23. To see if the town will vote to have one or more road commissioners, or act thereon.

ART. 24. To see if the town will vote to have a school physician or a County nurse for the ensuing year and raise and appropriate money for same.

ART. 25. To see what action the town will take to fight fires in Chisholm and vicinity and what sum of money the town will raise, or act thereon.

ART. 26. To see what sum of money the town will vote to raise for the abatement of taxes, or act thereon.

ART. 27. To see what method the town will take to collect its taxes for the ensuing year, or act thereon.

ART. 28. To see what sum of money the town will vote to raise for Mothers' Aid.

ART. 29. To see if the town will vote to raise the sum of twenty-five dollars to repair the gate and gateway of the Bean's Corner cemetery, or act thereon.

ART. 30. To see if the town will vote to permanently improve the so called Hyde Road, beginning at the sand hill west of White Face Corner, so called, and ending near the residence of Fred H. Smith.

ART. 31. To see what sum of money the town will vote to raise or appropriate for same, or act thereon.

ART. 32. To see if the town will vote to hire a watchman for Chisholm.

ART. 33. To see what sum of money the town will vote to raise to pay for same.

ART. 34. To see if the town will vote to sell the Town Farm, or act thereon.

ART. 35. To see if the town will vote to accept the road as laid out by the selectmen near the residence of Simon Allen.

ART. 36. To see what sum of money the town will vote to raise to build the road mentioned in the preceding article.

ART. 37. To see if the town will vote to install a hydrant in the neighborhood of the Frank Ouilette place and raise money for same.

ART. 38. To see if the town will vote to continue building of the sidewalk on Dow Street, Chisholm. To see if the town will vote to raise the sum of eight hundred dollars to pay for same.

ART. 39. To see what action the town will take to relieve the present congested school conditions at Jay Bridge, so called.

ART. 40. To see what sum of money the town will vote to appropriate and raise in consideration of the action taken on Article No. 39 of this warrant.

ART. 41. To see what action the town will take in regard to digging or drilling wells at the schools, and what sum of money shall be raised for the purpose.

ART. 42. To see if the town will vote to install three electric lights at Riley's and raise money for the same.

ART. 43. To see if the town will vote to pay its treasurer three hundred dollars a year for services.

ART. 44. To see if the town will vote to allow the road commissioners pay for the use of their automobiles while working for the town.

ART. 45. To see if the town will accept the list of jurors as revised by the revising board, or act thereon.

ART. 46. To act on any other business that may legally come before said meeting.

The selectmen give notice that they will be in session for the purpose of receiving and correcting the list of voters at their office March 1st, 1924.

Given under our hands this 15th day of February, A. D. 1924.

G. F. KNIGHT,
T. L. PINEAU,
ARTHUR WILKINS,

Selectmen of Jay.

Report of Superintending School Committee

To the Citizens of the Town of Jay:

Your School Committee recommends that the town raise the following amounts for the coming year:

For Common schools	\$20,000 00
High school	5,000 00
Text-books	900 00
Repairs	3,000 00
Supplies and miscellaneous	1,500 00
Superintendence	800 00

Your Committee hoped that the new building on Macomber Hill might have been built and completely equipped for a little less than the amount raised for that purpose, but owing to the high cost of labor and material the total cost will be about the amount raised.

The building, however, is a fine one and the town should be proud of it.

In the Lake District the building has been completely remodelled inside. The windows have been changed so as to greatly improve the lighting, and chemical toilets have been installed.

The wooden building at Chisholm and the Canada Corner school-house have been painted.

Owing to the lack of room at Jay, your Committee deemed it advisable to rent rooms in a dwelling house there as a temporary place for the Primary grades, instead of adding to the present building.

This is not, however, a very satisfactory arrangement, as the fire hazard is too great, and the children are greatly handicapped by lack of room.

A good system of ventilation has been installed at Jay, and the remaining portion of the basement cemented, thus improving the sanitary conditions there.

Your Committee wishes to bring to the particular attention of the people of the town the great need for each and every school obtaining a good supply of drinking water. We recommend that there be wells dug or drilled for that purpose.

We also wish to call attention to the fact that we now have a first-class music teacher. We had to overdraw on the Common School account in order to get her, but we feel that the children are getting a great benefit from this department.

We feel that our teachers are doing good work and the general attendance is large.

With best wishes for the common good of all our school children, that they may be fitted to become the men and women of tomorrow, this report is respectfully submitted.

F. C. KEEP,
L. A. PARTRIDGE,
M. A. MACOMBER,

Superintending School Committee.

Report of the High School Principal

To F. M. Nickerson, Superintendent of Schools:

Herewith I submit my first annual report of the Jay High School. The number of scholars registered for the fall term was 70 and the average attendance for the term was 64.5. Two scholars moved from town and a few in the entering class were unable to do the work. At present, Feb. 14, the attendance is 66, comprising 11 boys and 6 girls in the Senior class; 7 boys and 3 girls in the Junior class; 6 boys and 16 girls in the Sophomore class; 11 boys and 5 girls in the Freshman class, and one post-graduate.

The progress of the scholars generally has been good. We have some scholars whose marks are always 90 or above, but such rank represents the best ability and effort. The weather has been mild for the most part with no deep snows to interfere with attendance. There have been five cases of prolonged sickness, two of them being scarlet fever.

There is in this school a large number of earnest, energetic and trustworthy boys and girls who realize the importance of an education. They are loyal to the school, obedient to those over them in authority, and diligent and faithful in their work. The school spirit is good, but as is the case in every school some will be content with a passing rank of 70, and will give no time to study outside of school hours. A regular time for study at home would often bring surprising results.

Athletics must be recognized as a branch of school life and should aid in the organization of school spirit and work. While our football team was unable to compete with large schools who have every facility and have been playing the game for years, yet we have hopes to even up scores when baseball comes around next spring.

I cannot express too strongly my appreciation of the coöperation and faithful work of our teachers. In a school of this size many occasions arise to try the patience of a young teacher. Both Mr. Blanchard and Miss McClusky who came in after the school began

last fall have worked hard and have ably met the requirements. The commercial course is popular as shown by the fact that 39 per cent. of the scholars are taking it. Four new typewriters were purchased, making seven now in use. Good progress has been made in music and one would go a long way to find a school that has accomplished as much as this one has under the management of Mrs. Pomeroy.

We have had a few visits from parents and I would be pleased if they were more frequent. I have met only courteous treatment in my relations with the public.

The course of study and the work of the teachers can be shown by the daily program given below.

DAILY PROGRAM

	Mr. Dennison	Miss McCluskey	Mr. Blanchard	Miss Burr
8.45- 8.55	Ex.			
Tue. & Wed.	Singing Ex.			
	8.45-9.15			
8.55- 9.35	Anct. Hist.	Shorthand I	Elem. Science	Eng. II
9.35-10.15	Algebra	B. K. I		Eng. IV
10.15-10.30		RECESS		
10.30-11.10	Latin	Adv. Typ.	Lab. Work	Dom. I & IV
11.10-11.45	Caesar	Adv. Shorthand	& Chemistry	Science
11.45-12.55		NOON		
12.55- 1.35	Com. Law	Adv. Arith.	Adv. Math.	Eng. I
1.35- 2.15	Amer. Hist.	Arith. I	Geometry	Eng. III
2.15- 2.55	Cicero	Adv. B. K.	French II	Dom. II & III
2.55- 3.30		Typ. I	French III	Science
	Girls' Gym. work Tues. and Thurs., 3d period in main room.			

In conclusion I wish to thank the members of the School Board and you, Mr. Superintendent, for interest and assistance in this school.

Respectfully submitted,

A. L. DENNISON.

Report of Teacher of Domestic Science

To the Superintendent, Superintending School Committee and the Citizens of the Town of Jay:

It is with great pleasure that I submit my second annual report for the Home Economics course in Jay High School.

The aim of the course in homemaking for High schools should be to develop individuality and independence, and to emphasize a spirit of homemaking rather than manipulative skill.

Since the time allowance given in the State course of study is exactly twice that which can be given in each class, and since the State course covers but two years' time, I have lengthened the course to four years. This, at the end of the Senior year, will result in the pupils having the same number of lessons as the course of study requires.

In the Freshman year, the students are taking cooking, working on the meal plan. This means that we take up, in separate lessons, one representative article, which might be served in a single meal, and after having completed the different meal courses, we serve the meal itself, showing the proper method of serving both the formal and informal types.

The Sophomore and Junior classes are taking sewing, the aim here being to teach the selection of materials, planning and making of simple garments with emphasis placed on the value of simplicity, of cost, of time used in construction and of the care of the materials. Some time will also be given to simple stitches in needlework and other methods of handiwork.

The Senior class studied dietetics the fall term, which includes a study of food, its sources and uses in relation to building, to repairing, and to supplying conditions for perfect nutrition in the body. This term they are studying household management. This includes house planning and furnishing, housewifery, a combination of sanitation and the economics of labor, and the care, repair and operation of the necessary household appliances.

Of course hot lunches are being served during the cold weather, which seem much appreciated, and which also give added practice to all the classes in the preparation of common dishes.

I surely appreciate the fact that larger accommodations have been given me for this branch of my work, and I have tried to make good use of them. The girls have made curtains for the windows in both rooms, making them much more attractive. They also seem to be much more interested in keeping the rooms clean, and in beautifying them.

I want to thank all the citizens for their kind coöperation in my work, for it surely helps to know that the parents are interested.

Respectfully submitted,

MARJORIE BURR.

Report of Commercial Teacher

*To the Superintendent, Superintending School Committee and the
Citizens of the Town of Jay:*

It is with great pleasure that I submit to you the first annual report of my work as Commercial teacher of Jay High School.

By secondary commercial education we understand that training of the secondary school, direct and related, the aim of which is to equip young people for entrance into business life. Assuredly those going into business are entitled to an education, which, so far as possible, will give breadth of view and catholicity of interest, as well as facility in performing some specific task in the business world. I believe, therefore, that secondary commercial education can and should be made liberal, and at the same time prepare for some branch or branches of business.

The ideal commercial course is one that is planned to meet the requirements of four classes of pupils: First, those who desire to take the full course as a training for business; second, those who for some reason must leave High school before graduation; third, those who desire to choose certain commercial subjects as electives in an academic; fourth, those who are preparing to take a course in commerce and finance in a higher school curriculum.

My work is carried on as outlined in the State Course of Study. During each day I teach two classes in shorthand, two in typewriting, two in bookkeeping, and two in arithmetic, making me an instructor for eight periods a day.

Perhaps it would be of interest to state that out of the sixteen enrolled as Freshmen this year, twelve are taking the Commercial work, their unit of study being commercial arithmetic. The Sophomores are fifteen in number; their work consists of typewriting, commercial law and elementary bookkeeping.

The pupil who has finished this year's work in bookkeeping should be able to keep a simple set of books, or to assist with more elaborate one. He should also be well qualified to give satisfaction in many clerical positions for which boys are in great demand. The Juniors are seven in number, the Seniors fourteen. These two are combined into one class each, of shorthand, typewriting, business arithmetic and intermediate bookkeeping.

The students have shown much interest in this work and have made good progress. Let us strive with all our best efforts and power with a happy combination of "books and things" to mould the lives of our youths so that their best destiny may be accomplished.

Respectfully submitted,

FRANCES McCLUSKEY.

Report of Helping Teacher

To the Citizens, Superintending School Committee and Superintendent of the Town of Jay:

As Principal of Jay Grammar School and Helping Teacher for the town, I send to you my third annual report.

It has been much more difficult to keep thoroughly acquainted with the work in the Primary school since it was moved to its new quarters in the Merriman house. This is not a satisfactory place in many ways but both teacher and pupils have made the very best of it and have worked in a very creditable manner. I hope that the grades may have a suitable place by themselves soon, for it becomes more and more evident each day that grade and High school pupils should never occupy the same building.

The children of both rooms presented a program for Memorial Day as is their custom each year. This is certainly one of the best ways to teach "Patriotism."

The Jay Grammar School contributed to the graduation exercises a project called "A Trip to South America." This was typical of the work which the pupils actually do in school. There were four graduated from this school.

The Primary and Grammar rooms united for a free Xmas entertainment which consisted of songs, plays, dialogues, recitations and Victrola music. A social hour followed in which the Xmas trees were unloaded.

American Education Day was observed in the Grammar room. The proclamations of the U. S. President and the Governor of Maine were read by pupils and statistics given which showed the percentage of illiteracy in our country and in the different states and ways and means of abolishing it were discussed. The Reverend Henry Hathaway, pastor of Jay Baptist Church, gave a very interesting and helpful talk on "Education."

The work in both Primary and Grammar rooms has been greatly hindered this winter term because of so much sickness. The average attendance is very small. The eighth grade has suffered most but we hope to be able to make up the work so that the seven members of that class may be graduated.

I have carried on my work in the rural schools as before, making in all fourteen visits to them. With the assistance of Miss Buck, the State Health Crusade Director, I have succeeded in establishing in all the schools in the town a health project carried out by the plan known as the "Modern Health Crusade." This project is really a course in Applied Hygiene and is part third of the State Program in Physical Education. It is hoped that the parents will give their full support for it is the aim of the Crusade to link the home and school in health work. It is a system of training in good health habits based on practice and not on mere precept. A habit is safer than a rule. Its object is to interest the children in forming health habits not only for prevention of disease but also for promotion of health.

Most of the rural schools have been very much improved in the last two or three years. The most essential things such as lighting, heating and ventilation, have been carefully attended to. Chemical toilets have been installed in some places thus doing away with the abominable outside dirt vaults.

We must not forget that in order to do efficient work we must have suitable buildings so we should provide them wherever they are necessary. Then we shall all be working together for the continued advancement of our school system which should be one of the very best.

I wish to thank all who have so kindly helped me in my work.

Respectfully submitted,

HELEN M. GROVER.

Report of Music Director

The music is making rapid strides in its different branches.

According to his grade, each pupil is being instructed to appreciate good music, through the means of the talking-machine.

Under pitch, rhythm, rote-songs, etc., a definite course is being carried out for each month, which lays the foundation for the advanced work.

A four weeks' drive in sight-singing was conducted, from which great strides were made, and since there was such splendid interest and coöperation of pupils and teachers, excellent reports have been made.

In the High school chorus work little needs to be said, since all but about a dozen elect the subject. The appreciation course as well as orchestral work manifest exceptional results.

ELIZABETH P. POMEROY,

Supervisor.

Report of Superintendent of Schools

To the Superintending School Committee and the Citizens of the Town of Jay:

I am pleased to submit my second report of the physical and the financial condition of the schools in Jay.

Twenty-eight teaching positions are being maintained. So many of the children of the Lower Chisholm school are attending the Parochial school, that we were able to discontinue one teaching position there.

The two schools at Bean's Corner were combined, thus eliminating a teaching position there.

The most of last year's teachers are remaining with us this year. They show a fine spirit of interest, and are coöperating splendidly in all lines of work.

Scientific tests in Reading and Spelling are being introduced, but they have not been carried far enough so that a report can be made on them at this time.

One teacher has been added to the High school faculty, making four in all.

To show the growth of the High school during the past few years I give the following statistics of attendance taken from the Principals' registers.

The number of students attending the High school in, —

1918 was 32

1919 " 34

1920 " 28

1921 " 31

1922 " 43

1923 " 61

1924 is 66.

The prospects are for a larger entering class next fall than we have had before.

The Principal's report found elsewhere in this report gives information in more detail.

JANITORS

The janitor work is being done in the same way, and in the larger schools by the same janitors as last year. In the smaller schools it is under the supervision of the teachers and in many instances is done by one of the pupils.

The careful and painstaking work of the regular janitors is very pleasing to the teachers and very satisfactory to the committee.

ATTENDANCE

The attendance has been lowered considerably by scarlet fever and whooping cough. Otherwise, the attendance is better than it was last year, there being fewer of what we in our last year's report termed "Chronic cases."

MEDICAL INSPECTION

This has been attended to by the County nurse. Following is a summary of her findings

Of 157 pupils examined 110 were affected as follows:

TROUBLE	NO.
Hypertrophied tonsils	27
Adenoids	4
Defective vision	13
Defective hearing	7
Defective teeth	26
Malnutrition	8
Pulmonary trouble	1
Full throat	1
Catarrh	1
Anemia	4
Skin disease	2
Number found without any of these troubles	47
Number with defects corrected	5
Number not vaccinated	17

Only a part of the schools were visited by Miss Anderson, but we are hoping that the nurse who has taken her place will be able to finish up the work.

Through this work parents may, perhaps, be made aware of the conditions that they were not suspecting; and it is hoped that those to whom defects are reported will at once take steps to correct them.

CONVEYANCE

Conveyance has been provided where it is thought by the committee to be necessary. Practically the same arrangements have been made as were made last year. Mr. Gassett conveys from the Blaisdell school to Bean's Corner school. Mr. Edwin Bartlett conveys to Jay. Mr. Ernest Thompson, Mr. Merle Gammon, Mr. E. B. Maxwell and Mr. Hiram McLaughlin are paid a small amount per week to get their own children to school. This is much cheaper than it could be done any other way.

The students from Chisholm and from Riley have been conveyed by truck or team, and are now being conveyed by teams. Train fare is paid for those who go by train, and the others are paid by prorating according to mileage, to those who travel four miles or more daily.

RURAL HELPING TEACHER

The Rural Helping Teacher's report may be found in another part of this report. Her work is a great aid in bettering rural school conditions, and it is mainly through her efforts and direction that work is done in the three following departments.

DRAWING AND ART APPRECIATION

This is done by the teachers according to their ability. In some instances very commendable work is done.

PHYSICAL CULTURE AND HEALTH HYGIENE

Clark's "Physical Training" is furnished as a text-book and guide to the teacher in carrying out the first part of this subject. The second part is in accordance with the recommendations of the Helping Teacher and the State Director.

DOMESTIC SCIENCE

In the High school regular courses are being followed by the domestic science teacher. The work is sure to be productive of good results in the future.

In the rural schools it is done in a small way by the teachers.

HIGH SCHOOL

The High school has sixty-six students at the present time, and is doing good work with A. L. Dennison as Principal; Norris W.

Blanchard, sub-master; Frances I. McCluskey, commercial teacher; and Marjorie Burr, domestic science teacher.

Reports of these teachers may be found elsewhere in this report.

SUPPLIES

The usual necessary supplies consisting of arithmetic, writing, drawing and construction paper; ink, chalk, erasers, pencils, rubber erasers, pens and penstocks, wax crayons, water paints, paper towels with containers, and toilet paper with containers. And to this should be added "Seat work" for the primary grades.

Four typewriters have been bought for the commercial department with tables for the same.

BOOKS

We have tried to furnish all necessary books, and we are trying to so buy reading books that the first three grades shall have six sets.

The music course and the commercial course have necessitated buying quite a quantity of new books. Also the increase in the student body demands more books.

FUEL

Fuel has been provided as usual by the committee.

REPAIRS

A new ventilating system has been installed in the High school building, and the basement floor which was partly cemented has been completed. This puts the ventilation of this building in fine shape. Fifteen new seats and ten new settees have been added to the High school furniture.

The expense of putting the rooms in the Merriman house in condition for occupancy by the school comes under this account.

It is planned to put slate blackboards in the Morse Hill school, to remodel the Stone's Corner school, and to paint the Lake school this year.

NEW BUILDINGS

The superintending school committee's report covers the new building on Macomber Hill. I wish to add that I regret that this building was not completed sooner. It is a nice building and will make a nice home for the children. I seem to realize its beauty and value more and more with each repeated visit to it.

It is expected that something will be done to relieve the congested condition which exists in the schools at Jay.

STATISTICS OF TEACHERS

NAME	Grade	Experience in Terms	Salary	School Taught	Education

Town Warrant

To Carl B. Wright, a Constable of the Town of Jay in the County of Franklin,

GREETING:

In the name of the State of Maine you are hereby required to notify and warn the inhabitants of the town of Jay, qualified by law to vote in town affairs, to meet at the Town House in said town on the ninth day of March, A. D. 1925, at ten o'clock in the forenoon, to act on the following articles, to wit:

ARTICLE 1. To choose a moderator to preside over said meeting.

ART. 2. To choose all necessary town officers for the ensuing year.

ART. 3. To see what sum of money the town will vote to raise to defray town expenses for the ensuing year. 4 000

ART. 4. To see what sum of money the town will vote to raise to defray pauper expenses for the ensuing year. 80 00

ART. 5. To see what sum of money the town will vote to raise for the repairs of roads and bridges for the ensuing year. 8 00

ART. 6. To see what sum of money the town will vote to raise for snow bills. 3 000

ART. 7. To see what sum of money the town will vote to raise for the support of common schools, including teachers' wages, janitor work and fuel, for the ensuing year. 20, 000

ART. 8. To see what sum of money the town will vote to raise for the support of Free High School, including teachers' wages, janitor work and fuel, for the ensuing year, or act thereon. 7, 000

ART. 9. To see what sum of money the town will appropriate for Free High School. 7000

ART. 10. To see if the town will vote to provide conveyance for all pupils attending Jay High School from places two miles or more from said school and what sum of money the town will vote to raise for this purpose. 600

ART. 11. To see what sum of money the town will vote to raise for repairs of schoolhouses for the ensuing year. 3000

ART. 12. To see what sum of money the town will vote to raise for free text-books.

ART. 13. To see what sum of money the town will vote to raise for school supplies and miscellaneous bills. 1600

ART. 14. To see what sum of money the town will vote to raise for the salary of Superintendent of Schools.

ART. 15. To see what sum of money the town will grant and raise to pay outstanding notes and interest on same. 10,000

ART. 16. To see what sum of money the town will raise for Memorial Day. 1000

ART. 17. To see what sum of money the town will vote to raise for hydrants at Chisholm. 2800

ART. 18. To see what sum of money the town will vote to raise for electric lights. 1200

ART. 19. To see if the town will vote to reimburse Mrs. Ella M. Jones the sum of \$33.69 for an error in assessment in 1922, she being a soldier's widow.

ART. 20. To see if the town will vote "yes" or "no" on the question of appropriating and raising money necessary to entitle the town to State aid as provided in Section 20 of Chapter 130 of the Public Laws of 1913.

ART. 21. To see what sum of money the town will vote to raise and appropriate for Art. 20. *81062*

ART. 22. To see if the town will vote to raise the sum of Five Hundred Dollars for the purpose of enabling the Niles Memorial Library Association to maintain a free public library. *500*

ART. 23. To see if the town will vote to have one or more road commissioners, or act thereon.

ART. 24. To see if the town will vote to have a school physician or a County nurse for the ensuing year and raise and appropriate money for same. *600*

ART. 25. To see what action the town will take to fight fires in Chisholm and vicinity and what sum of money the town will vote to raise, or act thereon. *600*

ART. 26. To see what sum of money the town will vote to raise for the abatement of taxes, or act thereon. *200*

ART. 27. To see what method the town will take to collect its taxes for the ensuing year, or act thereon. *1000*

ART. 28. To see what sum of money the town will vote to raise for Mothers' Aid. *1000*

ART. 29. To see if the town will vote to continue building the sidewalk on Dow St., Chisholm; to see if the town will vote to raise the sum of Eight Hundred Dollars to pay for same. *800*

ART. 30. To see if the town will vote to authorize its treasurer to make temporary loans, said loans to be approved by the selectmen and not to exceed the total tax levy of the preceding municipal year in which they are made; said loans to be paid out of the money raised by taxes during the current year in which said loans are made, in accordance with the provisions of Section 62, Chapter 4 of the Revised Statutes of Maine and all acts amendatory thereof and additional thereto. *Yes*

ART. 31. To see if the town will vote to install four electric lights on the road leading from No. Jay to Jay Bridge, so called, between the Trestle Bridge and Macomber Hill road and raise money for same.

ART. 32. To see if the town will vote to build a sidewalk from the Corner at No. Jay to the residence of Leon Taylor on the Wilton road, so called, and see what sum of money the town will vote to raise for same.

ART. 33. To see if the town will vote to install two street lights, one between the residences of A. B. Robinson and James Stevenson and one near the residence of Peter McKay, and see what sum of money the town will vote to raise for same.

ART. 34. To see if the town will vote to build a board fence for a snow break between the residences of R. E. Wing and C. H. Paine and see what sum of money the town will vote to raise for same.

ART. 35. To see if the town will vote to purchase a snow roller for the use of roads at No. Jay and vicinity and see what sum of money the town will vote to raise for same.

ART. 36. To see if the town will vote to exchange the old motor truck for one or two lighter trucks for the use of town and see what sum of money the town will vote to raise for this purpose.

ART. 37. To see if the town will vote to repair the Robert Fuller Hill and raise the sum of \$200.00 for said repairs, or act thereon.

ART. 38. To see if the town will vote to build a sidewalk on Otis Street, so called, in Chisholm, and see what sum of money the town will vote to raise for same.

ART. 39. To see if the town will vote to install an electric light near the corn shop at Jay Bridge.

ART. 40. To see if the town will vote to raise the sum of \$100.00 for the Jay High School Athletic Association, or act thereon.

ART. 41. To see if the town will vote to build a shed at the new High School, in which the students may house their teams and automobiles, and to see what sum of money it will raise or appropriate for that purpose. 8000.

ART. 42. To see what sum the town will vote to raise or appropriate for furniture and appliances to equip the new High School rooms. 2000

ART. 43. To see if the town will vote to install a fire alarm box near the residence of Chas. Castonguay on Dow Street, Chisholm, and see what sum of money the town will vote to raise for same. 200

The selectmen give notice that they will be in session for the purpose of receiving and correcting the list of voters at their office March 7th, 1925.

Given under our hands this 20th day of February.

44. *Thomas Pineau*
THOMAS PINEAU,
ARTHUR WILKINS,
B. H. FARRINGTON,

SCHOOL REPORT

Town of Jay

1924

Report of Superintending School Committee

To the Citizens of the Town of Jay:

Your School Committee recommends that the following amounts be raised by the Town for the ensuing year:

For High school equipment	\$ 2,000 00
Common schools, text-books and desk supplies	20,000 00
High school	7,000 00
High school conveyance, as the town may vote	
Repairs	3,000 00
Apparatus and special purposes	1,500 00
Superintendence	800 00
Water for schools	1,500 00

During the summer vacation your School Committee made a careful inspection of all School buildings in town and found them in need of repairing, such as, ceilings, walls, desks and some painting, inside and out. We also had to shingle the Intervale school as the roof had begun to leak in places.

Your Committee decided to have wells drilled at the following schools, one at Stone's Corner, one at the Brick School in Chisholm, and one at Riley. It is recommended by your committee that you have at least three more wells drilled this next year.

During the past year your Committee considered the necessity of economy and has tried to keep within the appropriations.

Thanking you for the support you have given the schools in the past, so that our boys and girls may receive the proper training that is necessary to help them in the future, this report is respectfully submitted.

L. A. PARTRIDGE,
F. P. FARNHAM,
S. S. WRIGHT,

Superintending School Committee.

Report of the High School Principal

To the Superintendent, Superintending School Committee and Citizens of Jay:

I herewith submit my second report of the Jay High School. There are 67 scholars attending this school, 35 boys and 32 girls. Five scholars left school the first of the fall term with an attendance of less than two weeks and therefore were not legally entitled to registration. One boy has left in the winter term on account of continued truancy. The average attendance for the fall term was 63 1-3, which is about the same as last year.

Those scholars not absent a session in the fall term are as follows: Adeline Crafts, Ruth Crafts, Angelo Ceci, Edith Foster, Florence Keyes, Elphe Labbe, Lora Larochi, Agnes Masterman, Helen Masterman, Reginald Mosher, Norman Plaisted, Alice Thompson, Harriet Thompson, Anginette Tucker and Aurora Fournier.

School conditions generally have been favorable, and good progress has been made. The most of the scholars appreciate their opportunity, but a few in spite of all that can be done throw away their chances. It has been my habit to be at my desk a 7.50 o'clock and not to leave the building till 4.30. During the time school is not in session in the morning and at noon, much school work is being done, and it is no unusual thing to see 25 or 30 scholars in their seats preparing their lessons, helping each other or getting help at the desk. The maxim, time is money, is as true for the scholar as for the man in business. Children should attend school with the same regularity as clerks in a store, and they should understand that a good job in the future depends on honest efforts in the past.

The fact should not be overlooked that Jay High School has more than doubled in attendance since 1921, and last year graduated 16, the largest class in the history of the school.

The town has in process of construction the best high school building in Franklin County and one of the best in Maine. Let's all try to

make it the best high school in this county. Next fall three members of our Senior class will enter college. They are well equipped for the work, and I am sure will pursue it with profit and honor to themselves. All scholars cannot go to college, and only those should attempt it who have good ability and the inspiration for hard work.

Children are usually interested in school work and will find pleasure in doing it under right conditions. It is quite as important for a teacher to know what an average scholar can do as it is to know how to teach him.

In most schools thoroughness needs to be emphasized. Too much ground is too often required in too many subjects. I am not saying this in criticism of any place in particular. The class that entered Jay High School last fall was better fitted as a class than either of the classes that entered Foxcroft Academy in 1921 and 1922.

On the whole I am glad to report conditions good and scholars contented and taking much interest in school work. I give below our daily program.

I wish to thank all who have contributed to the welfare of this school and to make our duties here pleasant.

Respectfully submitted,

A. L. DENNISON.

DAILY PROGRAMME

	Mr. Dennison	Mr. Blanchard	Mrs. Fairchild	Mrs. Chandler
8.45- 8.55	Opening Exercises

Sewing, Tuesday and Thursday, same period.

Report of Teacher of Domestic Science

To the Superintending School Committee and Citizens of the Town of Jay:

As teacher of Domestic Science in Jay High School, I wish to submit a report of the work in this department for the year.

It is rather early in the year to make a satisfactory report of the work in Domestic Science or Home Economics as I prefer to call it. However, I will try to tell you our hopes for the future as well as what we have accomplished. This year we have three courses, since there was little call for work in the Senior class.

We offer cooking and a study of foods to the first year class. The first term's work took up the study of vegetable cookery, — uses of eggs and milk, — and some work with sugars. The winter term is devoted to preparation and serving of hot lunches to the pupils in the building. We have tried to have the lunches varied, wholesome and nutritious. The winter term is usually a hard one for school children and something hot seems to stimulate their appetites. A small fee is charged which simply covers the cost of materials used. This requires the same amount of time as allotted to cookery in the fall. In the spring the study of various foods will again be taken up with practice as usual.

Sewing and a study of textiles is the subject taken up in the Sophomore class. This includes drafting standard patterns for underwear, making tailored cotton garments and finally making a cotton dress. According to the State plan we should offer but one year in sewing in the course. For that reason I am trying to combine the principles taught in the Junior year as well.

The fall term work in the Junior class was devoted to drafting patterns for the making of underwear. This was followed by a major problem — making a tailored flannel dress. During the winter we are studying hygiene and home nursing. In the spring we hope to take up some work in food selection and nutrition, possibly dem-

onstrating some lessons in proper habits of living among the children in the grades.

It is an old cry of the school that work is limited, due to lack of space. No really satisfactory work can be done in cookery unless the pupil can do entirely her own work. That of course cannot be accomplished without desks or tables properly outfitted with individual equipment. We trust this can be done in the future.

Again more of the teacher's time should be devoted to Home Economics work. I should say at least three fourths of her time would not be amiss to be devoted to the Home Economics course. In many towns the teacher gives all her time to this subject, spending part of the time in grade work. In the same proportion as the teacher gives her time to Home Economics work, her salary will be drawn from the State funds. Home Economics subjects are now accepted as college entrance credits just as are commercial subjects.

When people in general realize the need of wholesome food for growing children, plenty of sunshine and fresh air, and light, warm, clean clothes, there will be fewer illnesses and more children will become healthy useful citizens. The best we can do is none too good for the best children in the world — ours.

I wish to express appreciation for the interest and coöperation of parents and friends of the school.

Respectfully submitted,

RUTH MARCH FAIRCHILD.

Report of Commercial Teacher

*To the Superintendent, Superintending School Committee, and the
Citizens of the Town of Jay:*

It is with pleasure that I submit to you the first annual report of my work as Commercial teacher.

The aim of the course is to prepare the students for entrance into the business world. The work is taken up as outlined in the State Course of Study and a standard system of ranking used.

The first year consists of what I describe as Introductory Business. This is Arithmetic, including business forms, thereby preparing for the next year's work in Bookkeeping.

The second year Bookkeeping and Typewriting are introduced. The books used in the four Bookkeeping sets are Journal, Ledger, Cash, Purchase and Sales. All business forms are used. In Typewriting a mastery of the keyboard is accomplished.

The third year Bookkeeping and Typewriting are continued, and the Gregg system of Stenography is offered. The Purchases and Sales Ledgers are added to the Bookkeeping sets. In Stenography the students take Dictation, consisting of simple business letters and short articles. More emphasis is placed on speed in Typewriting (not omitting accuracy) Business English and Correspondence is included in this work.

The fourth year Stenography consists of Dictation of business letters and articles including nearly every subject, so that the student is familiar with all branches of office work. If Bookkeeping is continued this year the additional sets include Cost Accounting and Banking. In connection with Typewriting lessons in Office Practice are given.

I wish to extend hearty thanks to the Superintendent, Members of the School Committee, and citizens of the town, for your cooperation and interest shown in the work.

Respectfully submitted,

MARION P. CHANDLER.

Report of Helping Teacher

*To the Citizens, Superintending School Committee and Superintendent
of the Town of Jay:*

It is my privilege to again make a report of my work as Helping Teacher for the town of Jay.

I have visited all of the schools in the town. Under the direction of Miss Abbie M. Buck, State Health Crusade Director, I have established the Health Project called the Modern Health Crusade in all the schools. This project needs the hearty support of all parents and teachers so that we may instill into the minds of the children certain health habits. There is nothing of greater importance than promoting health for without it we can expect to do but little in life.

My visits to the rural schools have been as follows: Stone's Corner 3, Canada Corner 2, Clay Brook 1, Stubbs' Mill 1, Bean's Corner 1, Lake school 1, Morse Hill 1, and Macomber Hill 2. I attempted to make one at the Intervale school but found it closed for that particular day. Some of these were solely to start the health project. Others were for assistance in the way of arranging the course of study, the program, seat work, lower grade work, physical exercises, development and presentation of lessons and play-ground supervision.

I hope that all teachers will faithfully follow the State course of study and will see that all children complete the outline of work as scheduled there before they are permitted to be graduated from their respective schools. Otherwise they have not equal chances in the higher institutions of learning. I'm sure all parents will see the wisdom of this. There must be a solid foundation for our educational system.

I believe that most of the rural schools are in very good condition now and that the children are making rapid strides toward their goal. Some of the teachers in these schools were in the same places last year, consequently they are able to accomplish more for teacher and pupils are acquainted. It is a pity that a school should have to have a

different teacher each year and it is almost disastrous to make changes during the year.

Some misunderstanding seems to have arisen as to our present grade system. A sub-primary grade has been put in and the 9th grade abolished. It still takes nine years to get through the elementary school if each grade is taken. Of course many children can do more than one grade's work in a year and are advanced accordingly.

It will be very gratifying to all I'm sure to know that all of the schools have taken part in some kind of entertainment or entertainments during the year. There is no better training than that which brings the child before the public to do his part in something which is really worth while. Besides this with the money earned much needed equipment for the school-room or play-ground has been secured.

I thank all of you for your continued coöperation.

Respectfully submitted,

HELEN M. GROVER.

Report of Music Director

To the Superintendent, Superintending School Committee and Citizens of Jay:

My second annual report of School Music as taught in the town of Jay I am pleased to submit for your consideration.

The same general plan is being carried out again this year, and it is my aim, with the coöperation of the teachers, to so advance the pupils that each grade will be up to the standard within a few years that is laid out in Hollis Dann's Course.

I wish to express my appreciation to the teachers for their hearty coöperation and splendid work accomplished. The progress made in each branch of work is indeed satisfactory which is sufficient reason for being pleased.

My appreciation I wish to extend to the Superintendent and the School Committee for furnishing all necessary equipment for carrying on my plans. The teachers and pupils are greatly pleased with the Hollis Dann Course which was adopted last year.

The new books used in High School have been a source of much enjoyment. I wish more parents and interested friends would plan to visit the chorus and me on either Tuesday or Thursday morning at eight forty-five for a thirty minute period. I have never worked with a more interested group of students, nor can many schools, the size of this, boast of having as much good music.

Since I have been able to continue my fall schedule of one visit a week, with but few exceptions, the work has kept steadily advancing. Last year my trips to the rural schools, during winter term, were every two weeks.

The music rendered at the two graduations last June was highly commended. This showed what one day a week will do in instrumen-

tal training. I am hoping this department will show a marked advancement by next June.

I wish to thank all parents and friends for their interest which is evident.

Respectfully submitted,

ELIZABETH P. POMEROY.

Report of the Superintendent of Schools

To the Superintending School Committee and the Citizens of the Town of Jay:

Following is my third annual report of the physical and the financial condition of the schools of the town of Jay.

Twenty-six teaching positions are being maintained; four at Lower Chisholm, two at Upper Chisholm, seven at Jay (including the High Schol), two at Riley, three at North Jay, and one at each of the following; namely,— Bean's Corner, Morse Hill, Lake, Macomber Hill, Canada Corner, Stone's Corner, Stubbs' Mill and Clay Brook.

A school was maintained at the Intervale during the fall term.

Several new teachers had to be secured this year, and with one exception everything has gone well with them, and the schools are in very good condition

Our teachers are earnest and enthusiastic, and are endeavoring to make their labors productive of the most worthwhile results.

We have four high school teachers, the same number as last year, and under their charge the school is steadily striving for a higher standard of scholarship and training in all lines of endeavor.

JANITORS

The janitor work is done in the same way, and in the larger schools by the same janitors (excepting the high school building) as last year. Mr. James S. Bate has charge of the high school building, and we hear nothing but words of commendation for his work.

In the smaller schools the janitor work is under the care of the teachers, and in some instances is done by one of the pupils. In one school two girls have charge of the work and the room always looks neat and tidy.

The work of the regular janitors is done in a very satisfactory manner, pleasing both to the teachers and the school officials.

ATTENDANCE

With the exception of a few children the attendance has been specially good. So far, we have had no disease to materially interfere with it. We do have four or five cases in which irregular attendance seems to be "Chronic".

CONVEYANCE

Practically the same arrangements have been made this year as last year. Mr. Eugene Webber conveys from the neighborhood of the Intervale school to the school at Jay. Mr. S. S. Wright conveys to Canada Corner. Mr. Ernest Thompson and Mr. G. Merle Gammon are allowed a small weekly amount to convey their own children.

The high school students from Chisholm and from Riley have been conveyed by truck or by teams. Mr. Frank Brochu was engaged at the beginning of the winter term to convey the remainder of the year.

The train fare is paid for all who may go by train, and the balance is prorated to those who travel four miles or more daily.

FUEL

Fuel has been provided as usual by the committee. It requires about 100 tons of coal and 100 cords of wood. The coal is furnished by Mr. George Gould on a very small commission.

BOOKS

Books are bought as they are needed. Revised editions are always bought unless the old edition is specially requested. No school is destitute of books.

SUPPLIES

Arithmetic, writing, composition, drawing and construction paper are provided. Also paper towels and toilet paper, together with ink, pens and penstocks, pencils and rubber erasers, chalk and blackboard erasers, wax crayons, paste, gummed tape, transparent tape, scissors, busy work for the primary grades, and writing manuals for all grades.

HIGH SCHOOL

Prin. A. L. Dennison of Wilton has charge of the school. Donald D. Blanchard of Cumberland Center is sub-master; Mrs. Ruth March Fairchild of Orono is home economics teacher; and Mrs.

Marion P. Chandler of North Anson has charge of the commercial department.

Reports of these teachers may be found elsewhere in this report.

MEDICAL INSPECTION

Miss Johansen, our County Nurse, has taken care of this in most instances. Several critical cases have been attended to, and medical aid given through her advice and insistence. We feel that this is a splendidly worthwhile work and hope the town will continue to provide funds for it.

Physicians have been called on several cases, some of which had to be followed up.

Our report shows nothing paid to physicians because their bills have not been presented.

We hope a fund for physician's services will be provided for next year, as it seems absolutely necessary, sometimes, that a physician's services be had.

RURAL HELPING TEACHER

The Rural Helping Teacher's report may be found in another part of this report. Her work is very helpful to the inexperienced teacher, and it is mainly through her efforts and direction that the work is done in the three following departments.

DRAWING AND ART APPRECIATION

Under the direction of the rural helping teacher this work is done by the teachers, each working according to her ability; and in some instances excellent work is being done.

PHYSICAL CULTURE AND HEALTH HYGIENE

Clark's Physical Training is furnished as a text-book and guide to the teacher in carrying out the first part of this subject. The second part is done in accordance with the recommendations of the Helping Teacher and the State Director.

DOMESTIC SCIENCE

Regular courses are being followed in the high school by the Domestic Science teacher; and excellent results are being accomplished.

In the rural schools it is done in a small way by the teachers and pupils working together.

REPAIRS

Canada Corner school and Macomber Hill school were each given one coat of outside paint last year. They have been given the second coat this year. The Lake and the Intervale schools have each been painted two coats this year. The wood work on the brick school has been painted, and several of the other schools have been painted around the entrances, where the paint had become worn.

In the Riley, Stubbs' Mill, Canada Corner, and Bean's Corner schools the ceilings, walls, desks, etc., have been repaired, thus making them present a neat and inviting appearance. Mr. S. S. Wright had charge of this work.

Jackets have been placed around the stoves at the Riley school. Some inside work was done by Mr. Sawyer at the high school. A ventilating system has been added to the school at North Jay.

The teacher and children of the Macomber Hill school were instrumental in having electric lights installed. A good road has also been built to this school.

NEW BUILDINGS

The work on the Macomber Hill schoolhouse has been completed and we present the following details of the cost.

Paid Chester Macomber for the lot	\$ 200 00
C. L. Macomber for wire for the fence	28 50
J. D. Dick and men for fencing the lot	59 63
J. A. Moore for work on plans	50 00
H. D. Harnden for construction of basement and building	3,900 00
Newlands Company for wiring for lights	27 00
Starkey & Toner for chemical toilets	202 65
J. L. Hammett for slate blackboards	73 19
Bangor Window Shade Co. for shades	35 75
Theo. Kundtz Co. for desks and seats	227 40
W. A. Stuart & Co. for furnace	235 00
H. D. Harnden for extra work installing furnace	61 25
	<hr/>
	\$5,100 37

NEW HIGH SCHOOL

Owing to the severe cold weather, it was necessary to suspend operations on the new high school building for a few weeks, but the work is now moving along again.

The building cannot be completed as soon as it was thought that it might be, which is nearly always the case when new buildings are being constructed.

It is confidently expected that this will be one of the best high school buildings in the county.

EVENING SCHOOL

An evening school has been conducted at the Lower Chisholm schoolhouse, two hours an evening, two evenings a week, for several weeks, with Prin. Gordon M. Trim, Mrs. Trim, Mrs. Beulah Briggs, and Mr. Harold S. Wright as teachers. Nearly seventy men and women registered but not a very good attendance was maintained, though some good work was accomplished by those who held out to the end.

The school is now being conducted at Riley with Miss Nellie D. Wells and Mr. Herbert N. Ingalls as teachers, there being thirteen men and women registered.

STATISTICS OF TEACHERS

NAME	Grade Taught	Experience in Terms	Salary	School Taught	Where Educated
Mabelle H. Sargent	6-8	37	\$ 900 00	N. Jay Grammar	Farmington Normal School

Town Warrant

*To Carl B. Wright, a Constable of the Town of Jay in the County of
Franklin,* GREETING:

In the name of the State of Maine you are hereby required to notify and warn the inhabitants of the town of Jay, qualified by law to vote in town affairs, to meet at the Town House in said town on the 8th day of March, A. D. 1926, at 10 o'clock in the forenoon, to act on the following articles, to wit:

ARTICLE 1

To choose a moderator to preside over said meeting.

ARTICLE 2

To choose all necessary town officers for the ensuing year.

ARTICLE 3

To see what sum of money the town will vote to raise to defray town expenses for the ensuing year.

ARTICLE 4

To see what sum of money the town will vote to raise to defray pauper expenses for the ensuing year.

ARTICLE 5

Hydrants	300 00

All of which is respectfully submitted for your consideration.

ARTHUR WILKINS,
B. H. FARRINGTON,
ARCHILLE GROLEAU,

Selectmen of Jay.

REPORT OF BUILDING COMMITTEE FOR NEW HIGH SCHOOL BUILDING

To the Citizens of the Town of Jay:

We submit the following report:

Total appropriation, 1924 and 1925	\$65,000 00
From which the following amounts have been paid:	
James H. Kerr, general contract	\$44,353 67
James E. Scott, heating and ventilating	6,500 00
W. A. Stuart Co., plumbing	1,489 00
Lane & Lane, architect and engineer	4,061 99
Building Committee, time and expense	811 78
Emery Waterhouse, finish hardware	1,023 53
R. A. Fife Co., shades and blackboards	870 12
Attorney's fees	263 60
Miscellaneous bills, advertising and fuel	171 94
Extra work:	
F. M. Brown, electrical conduit	370 88
J. H. Mathews, tablet	96 69
Strout Brothers, electric wiring	327 67
Strout Brothers, freight	7 16
Austin Wyman, labor	3 50
H. L. Dyke, labor	43 45
James E. Scott, extra labor	231 13
James H. Kerr, extra labor on foundation, and draining basement, etc.	3,354 17
Total	<hr/> \$63,980 27

We also expended from the appropriation for
water \$966 14

There is a balance due Mr. James H. Kerr on
his general contract of the building of 646 33

We regret very much that the plastering has cracked somewhat in places but from a letter which we have from Mr. James H. Kerr we find that such things often happen on new work and which he will look after.

Owing to the increase in attendance and the fact that the School Board voted to move the 8th grade to the new building, we were obliged to install radiators in the whole building and the work is now in progress.

Respectfully submitted,

ELLIS D. ORR,
AMOS LABERGE,
WILLIS H. PIKE,
ROGER A. GORDON,
EVERETT C. DOW,

Building Committee.

SCHOOL REPORT

Town of Jay

1925

Report of Superintending School Committee

To the Citizens of the Town of Jay:

Your School Committee recommends that the following amounts
be raised by the town for the ensuing year:

For High School equipment	\$ 1,500 00
Common Schools, text-books and desk supplies	20,000 00
High School	8,000 00
Repairs	1,500 00
Apparatus and special purposes	1,000 00
Superintendence	700 00
Flag account	250 00
Coal pocket at High School	800 00
Insurance	1,500 00

FOSTINA P. FARNHAM,

JESSE BRIGGS,

CLINTON H. DOW,

Superintending School Committee.

Report of High School Principal

To the Superintendent, School Board and Citizens of the town of Jay:

My third annual report as principal of Jay High School is as follows: We began work in the new High School building on Sept. 8, with an enrollment of 81 scholars and four new teachers. Their names with the subjects taught are given in the daily program. The quality of the work done this year is generally good and will compare favorably with last year. The average attendance for the 15 weeks ending Dec. 18, was 78.24 or 15 more than the average of the Fall term a year ago. The school has the largest number of scholars in its history. At present, Feb. 19, there are 80, comprising 4 boys and 12 girls in the Senior class; 6 boys and 4 girls in the Junior class; 13 boys and 8 girls in the Sophomore class; and 11 boys and 22 girls in the Freshman class. The Freshmen recite in two divisions. It has some very excellent material.

Last fall four graduates entered college, Rutillus Allen and Wendall Mosher going to the U. of M. and Florence Keyes and Francis Ouellette going to Bates college. Reports from the Deans show that some of these students are taking honor rank and that this school may continue to send its graduates to college on the certificate of the principal. As the Chemical laboratory is still unfinished experimental work in that subject can not be carried on for want of sinks and water connection.

A modern encyclopedia should be purchased, the old one being very ancient.

S. S. Wright, a former member of the Jay High school board, presented the school with a fine new piano, said to be the best belonging to any school in the State.

A gymnasium equipment fund of \$120.50, collected largely by Mrs. Pomeroy, was handed over to me. I paid for canvas to cover the wall of the gym. \$14.00, and to Mr. O. Pepin \$18.00 for drilling holes in the cement wall and fastening on the canvas. This protects the players from bruises. I paid Mr. Rich \$2.00 for moving the old

piano to the balcony of the gym. I returned to Mrs. Pomeroy \$88.00, the most of which I believe is invested for the future needs of the gym.

The scholars made \$61.89 by selling Curtis Publications. From that sum I have paid to the James Bailey Co., for boys' athletic goods \$35.00, and to the Winthrop Girls' Basketball Team \$15.00, that being the amount of our guarantee for the game played here Feb. 9, which leaves a balance of \$21.89. There has been no epidemic of sickness this year and the weather has been favorable for school attendance. Lack of transportation from Riley has caused some inconvenience. No town in Maine the size of Jay can show a gymnasium the equal of ours. It fills a long felt want and simplifies the problem of school discipline. The worst punishment that can be given is to shut a scholar out of the gym. for a week. Regular supervised exercises are given the boys and girls separately for 80 minutes a week.

The first of the fall term the school day was lengthened from $5\frac{1}{2}$ to $6\frac{1}{4}$ hours. Prizes amounting to \$12.00 will be given for excellence in English Composition by Miss Rice and Mrs. Pomeroy as soon as we get the award of the judges. I have offered \$6.00 in prizes for the three best papers in an Algebra test which was given Feb. 19.

Mr. Gelinas must be given credit for his good service as janitor. The equipment of the building has much complicated machinery and the care of it alone would be no easy job.

The scholars not absent a session in the fall term are, Lora Carlson, Bernard Briggs, Mary Fabian, Rose Filteau, Edith Foster, Aurora Fournier, Carmel Gelinas, Della Holt, Faith Howard, Casimere Jacmic, Vetch Jacmic, Isabel Labbe, Matilda Lavoie, Lora Laroché, Roscoe Masterman, Maud Morton, Alice Purington, Gertie Salmela, Vienna Salmela, Zella Stanley, Florence St. Pierre, Arlene Tweedie, Rachel Thompson, Edgar Waite, Harry Waite and Philip Jackson. Four more names would have been in this list had it not been for the Music Festival in Lewiston.

The school needs a clock for the main room, a flag and flag-pole, settees for the gym. to accommodate those who pay admission to see the games and chairs for the typewriting room.

I wish to make acknowledgement to all who have assisted to make the school a prosperous one.

Respectfully submitted,

A. L. DENNISON, *Principal*.

DAILY PROGRAMME

Mr. Dennison	Mr. Hall	Miss Rice	Miss Dow	Miss Niles
Opening Exercises				
Music Tuesday and Thursday				
Algebra (A)	Science (B)	English 2	Dom. Sci. 4	Shorthand 1
Algebra (B)	Science (A)	English 4	Dom. Sci. 3	Bookkeeping 1

Virgil	Physical Train. (twice a week)	English 3	Dom. Sci. 1 (B)	Shorthand 2
Am. History	Vacant	French 2	Dom. Sci. (B)	Arithmetic 1 (A)

School begins at 8.45 and closes at 4 o'clock. One hour out at noon.

Report of Commercial Teacher

To the Superintendent, Superintending School Committee and Citizens of the Town of Jay:

I wish to submit to you for your consideration and approval an outline of the work which has been accomplished in the Commercial Department.

The work has been planned and carried out, as much as possible, as outlined in the Commercial and Business Curriculum, prepared by the State Department of Education.

In the first year, Business Mathematics is the only commercial subject. This includes arithmetic, business forms and elementary records. The main ideas are to present a course which (1) introduces practical work, making the work interesting and effective, (2) relates to problems of business and life, (3) includes practically every important type of problem, and (4) gives new and modern business conditions. This course could easily be called Introductory Bookkeeping.

In the second year, Bookkeeping is introduced. The books used are Journal, Ledger, Cash Book, Sales Book, and Purchase Book. Business Practice in writing checks, receipts, invoices, notes, drafts, etc., makes this interesting.

Typewriting is another subject offered in the second year. The principles of the keyboard are taken up, with much thought to technique. The object is to gain accuracy of the method, rather than accuracy of the copy. Naturally, it seems that if the method is correct, the copies would be correct, but this would be disregarding the human element. If the ideal is a "perfect copy," the student may produce it at the expense of technique and thus fail in his objective.

The latter part of the year, Commerce and Industry is taken instead of Typewriting. The aim of this, is to present a simple but adequate account of the development of industries and trade of this country.

In the third year, the Typewriting is a continuation of the first year's work. Actual specimens of various types of business letters are presented in the text, which gives the student an idea of the arrangements of business letters, envelopes, etc. The text contains exercises in which punctuation marks, capitalization, and other details of correct writing are omitted. This is a preparation for transcribing later. Typing from the longhand notes is another practice, which is of advantage to students.

Bookkeeping is continued in the third year. In addition to the books used in the previous year, the General Ledger, Sales Ledger, Purchase Ledger, Note-books, and a new form of Cash Book is used.

Shorthand is the new subject in the third year. There are so many people who have the erroneous idea that the only value of shorthand is the money that one gets from using it. They still sneer at it—as a “mere bread and butter” subject and only have it as part of the studies of young people, because it is necessary for their careers. But it is more than a study and a “money-getter.” Its educational value is far greater than its money value. A few of the things that the study of shorthand will do for us: (1) It quickens and enlivens the mental faculties, (2) it trains the memory, (3) it trains the powers of concentration, (4) it cultivates reasoning power, (5) it increases the knowledge and mastery of English, (6) it widens one's general knowledge. In the first year of shorthand, the great aim is to be able to know the principles of shorthand and to be able to receive dictation of simple business letters and articles.

In the fourth year, Typewriting and Shorthand are continued. The aim in typewriting this year is to develop accuracy and speed. Work dictated in Shorthand class, is used for Transcription. The work in Shorthand is a more thorough knowledge of the vocabulary. It consists of dictation of business letters and articles, covering each and every subject with which one may come in contact.

I feel that much has been accomplished this year, and with additional equipment, much more should be done in another year.

Respectfully submitted,

FLORENCE P. NILES.

Report of Helping Teacher

To the Citizens, Superintending School Committee and Superintendent of the Town of Jay:

I am pleased to present to you my sixth annual report as Helping Teacher.

My work throughout the rural schools has been carried on in the usual manner. Since my report of last year I have visited the following schools: North Jay 1, Morse Hill 3, Macomber Hill 1, Canada Corner 1, Stone's Corner 2, and Bean's Corner 1. I have several more visits to make in the near future. These visits were made for various purposes such as personal helps with the regular school curriculum, Modern Health Crusade work and the graduation program.

I am glad that so many of the rural teachers call on me for aid. I have been very much pleased to be able to send material, guides and suggestions for the course of study, seat work, and reference work; and to give advice to the best of my ability to those who have had difficulties. I want to be in every sense of the word "A Helping Teacher."

The Modern Health Crusade is a simple, practical system of health education for the child through training in health habit formation. Under the direction of Miss Abbie M. Buck, State Health Crusade Director, and with the assistance of Miss I. C. Johansen, County Health Nurse, I have established the health work in all the schools. This work as outlined by the State must form a part of the daily program. In nearly all schools splendid progress has been made. I'm sure all will be glad to know that ten of our schools entered the National Health Tournament last year and each won a National Pennant for proficiency in the performance of the daily health chores. This achievement makes Jay the leader for this work in Franklin County for there were only nineteen pennants won throughout the whole County. Right here I wish to thank the par-

ents who have so heartily supported the teachers in this important work.

It has been very gratifying to me to follow our graduates in the higher institutions of learning for they are doing very creditable work there. We should all feel proud that our struggles to lay a good foundation for them have been rewarded.

Please accept my thanks for your hearty coöperation.

Respectfully submitted,

HELEN M. GROVER

Report of Director of Music

*To the Superintendent Superintending School Committee and the
Citizens of the Town of Jay:*

I herewith submit my third annual report of Music taught in the schools of Jay.

A program definitely laid out by Hollis Dann, the author of our music series, has been carried on and in most of the schools much advancement has been made. One lesson a week has been taught by your Supervisor and a twenty-minute period a day taught by the room teacher for the remaining four days.

In the schools where there is a talking machine, the Supervisor leaves three new records a week from the circulating library provided by the town. These records contain a large variety of instrumental and vocal selections as well as band and orchestral numbers, games, etc. Children have made attractive posters, on which pictures of instruments, heard from records, are mounted.

The High School Chorus is doing splendid four part singing and it is to be hoped some of these may have the opportunity of singing in the Junior Maine Festival Chorus as nineteen did last October at Lewiston armory. Surely this was a privilege few school pupils have provided them entirely through the public school.

On Thursday of each week twenty or more High School students receive free instruction on instruments in preparation for orchestra or mandolin club. This year work in this department was late in getting a start but is now progressing nicely.

I started a drive for a piano for High School and when soliciting Mr. S. S. Wright for a donation he very kindly and generously offered to furnish the school with a new instrument. I however continued the drive but for gymnasium equipment. On this I raised from my own soliciting \$109.50. Amount now expended \$53.76. Amount on hand \$55.74 with yet some bills to be paid.

Because of the coöperation of a staff of efficient teachers a creditable degree of advancement in music has been made, and I wish to especially thank them, Superintendent, School Board, and citizens for their helpfulness and support.

Respectfully submitted,

ELIZABETH P. POMEROY.

Report of the Superintendent of Schools

I have the honor to herewith submit my first annual report to the Superintending School Committee and to the citizens of Jay, of the financial and physical conditions of your schools.

This year we are maintaining schools in all parts of the town excepting in the Blaisdell district, so called, and the brick school at Upper Chisholm.

After consultation with the State Commissioner of Education, the selectmen of the town, and the school board, it was deemed advisable to close the brick building at least temporarily.

We did this for business reasons. We had one vacant room at the Jewell Street school, and one at the High school. Both of these buildings had to be heated.

We could save the town the added expense of heat and janitor at least, in addition to the expense for repairs which are rather large at the brick school. We figured that we are saving the town from \$75.00 to \$100.00 per month by this move which in the course of this year will amount to nearly \$1,000.00.

We transferred the 5th grade and part of the 7th to the Jewell Street school, and the rest of the 7th and 8th grades to the High school building.

I believe this plan will work out to the financial advantage of the town and to the decided advantage of the children in the 7th and 8th grades.

I believe the teachers of Jay are conscientious and faithful in practically all cases and are doing faithful and worthwhile work.

We have one or two teachers without experience, but the rest are all teachers of experience and of Normal training besides. This gives us a teaching force that upon the whole is producing very good results.

In several cases we were especially fortunate in securing very strong and capable teachers for positions left open at close of the year last June.

We were obliged to secure an entire new corps of teachers at the High school with the exception of the principal. We were especially fortunate in the selections which were made here, as a visit to the school will very conclusively show.

It was necessary to add a new teacher to the High school force, and a teacher to have charge of the English and French was procured. This move has made it possible to departmentalize practically all of the High school work as should be the case in a modern school.

I wish to congratulate the High school teachers especially for the way they have taken hold of their work and carried on in the face of great obstacles.

We were not really prepared at the beginning of the term to start school, for the High school equipment had to be made in many cases and installed after school began, and we have been delayed for one reason or another all along the line. We started school with absolutely no equipment to work with in the lower rooms. We had to install heating apparatus, sinks, running water, cupboards, tables and so on.

The tables we had made on the spot. We could get the best tables, most up-to-date and at a considerable saving to the town. I studied catalogues of several equipment houses, visited several schools and in these tables combined the best of them all.

We did the same with the physics and chemistry tables, and next summer when we have two more tables made for Domestic Science and two more made for physics and chemistry, these rooms in this respect will be equipped as well as any school can well be.

We still need stools for the Domestic Science room and chairs for the physics room, and furniture for teachers' room. At present they all have to stand.

We also need a couch for teachers' room in case of sickness. All modern schools are now equipped with them for cases of emergency.

We also installed a fire fighting equipment for inside of the building. This was necessary in order to secure the lower rate on insurance. Here we saved around two hundred dollars by having local help build our cabinets. We installed on all the floors fire extinguishers and first quality linen hose with nozzles.

During the fall term we had the grounds graded and the cistern covered and protected so as to insure against its freezing in the winter. This work is practically finished. It will be entirely completed in spring.

Also a barn and garage for horses and autos was built this fall. It will accommodate five horses and six cars, which seems to be sufficient for the present.

Arrangements were made with the Maine Central Railroad to stop at the crossing to accommodate the children who come on the train. The company very kindly issued a special rate to "Jack's Crossing," so called, instead of charging a rate through to the next station as is the usual custom in such cases. For this courtesy we are very grateful.

A building has been constructed at the crossing to accommodate the pupils in cold or stormy weather. The cost of this building is about \$200.00.

We need, as I have already said, more equipment in our cooking and sewing department, also in our science department. I find quite a lot of valuable material on hand which Mr. Hall is looking over and getting into shape for next year. We have a fine room for storage of this equipment now so it can be properly cared for.

Our principal has an office bare of equipment. This, too, will need attention.

Heat has been installed all through the building and I believe we have made good progress along all lines in equipping the new building.

The State requires a course in physical training for all pupils. This has been accomplished and is under the direction of Mr. Hall and Miss Dow.

By another fall we hope to have this building fully equipped and the equal of any school in the State for its size and purpose. Whatever funds the town deems wise to entrust to us for use will, I promise you, be carefully used to the best advantage of the town.

At the beginning of the fall term our principal at Jewell Street was ill and not able to undertake her work. We procured a substitute who very ably filled the position for two months. It was then decided that Miss Lebarge would be unable to attend to her work. The four rooms were therefore combined and the other three teachers have carried on the work. This could well be done as all of the classes were small.

We were very sorry to lose Miss Lebarge and all hope for her rapid recovery to health.

Our work in music is being carried on most efficiently by Mrs. Elizabeth Pomeroy. Her own report is found on a separate page.

You will also find the report of our rural helping teacher, who is doing splendid work along her special lines.

I consider that we are very fortunate in securing the services of Mr. Gelinas, a carpenter and mechanic of marked ability, to do the janitor work at the High school.

We have a rather complicated system there to handle and it takes a man of judgment and ability to do it. We have just the man. I think our heating plant by far the most efficient system on the market today.

The janitor work at the other schools has been done very satisfactorily, and I wish especially to thank Mr. Berube and family for the excellent care they have always taken of the brick school.

We shall need to build a coal pocket at the new High school this summer. Our bin holds about twenty tons. I expect it will require from eighty to one hundred tons of coal to carry the school through. It is the part of economy and wisdom to build a coal pocket to take care of two carloads of coal. This fall we were obliged to store our surplus coal out of doors. It thus gets wet and burns more rapidly.

Our coal was purchased this fall direct from the wholesalers. We purchased most of it for \$5.75 f. o. b. Portland per long ton for first quality, navy standard Free River coal.

Our wood for this coming year has all been bought and is already hauled in many cases.

Our books and supplies we have purchased as economically as possible. Our schools are still short of books in a few cases, I expect, though upon the whole they are pretty fortunate in this respect. Supplies at present are very expensive for schools now-a-days require so many more things than were furnished a few years ago. However, we are now doing in schools a vastly different amount and kind of work from that which was being done in the good old times when every one drank from a common dipper and ate with dirty hands, and used slates and wiped them off on their coat sleeves.

As we start out on the new school year now we know financially just where we are and can go ahead rapidly and add the supplies which are necessary.

We are conveying children from the Blaisdell district and also from Spruce Mountain to Bean's Corner. This requires two teams.

Miss Johansen, the County Nurse, is doing good and faithful work in the schools of the town.

Hot lunches are being served regularly in the High schools and in some of the other schools. If we only had some equipment for this purpose at Jay Grammar school it would be much appreciated. The teachers have implored me for the necessary utensils for this purpose. Thus far I have not been able to comply with their request.

In the matter of repairs much was done last summer. Macomber Hill school building was painted. Also Clay Brook school was given two coats of paint. The building was painted on inside, slate blackboards installed, desks buffed down and varnished and the building was made to look like new.

At Stone's Corner a new, modern toilet was made. The old chimney, which was always a source of smoke and creosote, was torn down and a new one built outside of the building, and the ceiling was repainted and also desks were cleaned and varnished.

We did the same kind of a job at Stubbs' Mills, that is, we renovated seats, installed slate blackboards, constructed a modern toilet, moved the stove out into the center of the room where it belonged, and did some painting.

At Canada Corner a new toilet was built, and at Bean's Corner the building was shingled in part, new duck shades put up and much carpenter work was done.

At the Lake school one side of the building was shingled and new curtains purchased, and the old stove repaired by addition of a new front.

A new gravel roof was put on the piazza of the No. Jay school building. For several years this roof has leaked and after consultation with several people it was decided that the only thing that would answer our purpose there was a new gravel roof. We therefore had one put on.

A cupboard for books and kindergarten material was installed in the primary room and tables for the little folks were also made.

We were obliged to repair the windows of the church which had been broken out by the children in their play. After this was done permission of the church authorities was obtained and all the windows facing the school were provided with strong screens.

This brings us to the fact that we need more room for a playground at this building.

At Morse Hill School one side of the building was shingled. The inside was painted throughout, the seats refinished, new curtains hung and the ceiling whitewashed. This building now presents a neat and attractive and home-like appearance.

This summer a modern toilet will be needed at this school and another at Clay Brook. We have until Sept., 1927, to equip all rural schools with modern toilets. Besides these two there remains the Intervale school. If we run it after this next year we'll have to furnish a modern toilet there. When these jobs are done the schools in the town of Jay will be in excellent physical condition in every way.

We needed considerable plastering done at the Brick building and Jewell St. schools this last summer. Unfortunately the plaster at the Jewell St. school came off in about two months after it was put on. Up to now I've been unsuccessful in getting the man who did the work in the first place to do it over again.

From this rather brief and hastily written report the people of Jay can see that both the Superintendent and School Board and others have been rather busy most of the time since last July.

You can also see in general where the repair money has gone and what the town has to show for the expenditure.

In regard to the money raised for equipment and new building at the High school a visit will convince you that the Board has expended it as wisely as possible and put it where it would do the most good.

I wish to call your attention to the special reports appended and also the financial report which merits a careful study.

In closing I wish to thank the members of the School Board for their advice and consideration and hearty support and coöperation, and also to express my appreciation to the faithful teachers who have done and are doing such efficient service in the work of education.

To Mr. Sylvanus S. Wright, for long a teacher in our public schools and a member of the school committee, we wish to express in behalf of the people of Jay and especially of the children of the High school our sincere thanks for the kindly gift of a splendid piano.

Town Warrant

*To Leonard F. Williams, a Constable of the Town of Jay in the
County of Franklin,*

GREETING:

In the name of the State of Maine you are required to notify and warn the inhabitants of the town of Jay, qualified by law to vote in town affairs, to meet at the Town House in said town on the 14th day of March, A. D. 1927, at 10 o'clock in the forenoon, to act on the following articles, to wit:

ARTICLE 1

To choose a moderator to preside over said meeting.

ARTICLE 2

To choose all necessary town officers for the ensuing year.

ARTICLE 3

To see what sum of money the town will vote to raise to defray town expenses for the ensuing year.

ARTICLE 4

To see what sum of money the town will vote to raise to defray pauper expenses for the ensuing year.

ARTICLE 5

To see what sum of money the town will vote to raise for the repairs of roads and bridges for the ensuing year.

ARTICLE 6

To see what sum of money the town will vote to raise for snow bills.

ARTICLE 25

To see what sum of money the town will vote to raise for the abatement of taxes or act thereon.

ARTICLE 26

To see what sum of money the town will vote to raise for Mothers' Aid.

ARTICLE 27

To see what method the town will take to collect its taxes for the ensuing year, or act thereon.

ARTICLE 28

To see if the town will vote to build a cement sidewalk on Main St. in the village of Chisholm beginning at the East Livermore town line and extending to the railroad crossing.

ARTICLE 29

To see what sum of money the town will vote to raise for the above Article.

ARTICLE 30

To see if the town will vote to build a piece of sidewalk in the village of Jay, beginning at a point opposite the Post Office and extending toward the schoolhouse.

ARTICLE 31

To see what sum of money the town will vote to raise for the above Article.

ARTICLE 32

To see if the town will vote to raise the sum of Two Thousand Dollars to be spent on the road from Jay to Riley villages. The same to be spent under the directions of the International Paper Co. and the Selectmen.

ARTICLE 33

To see if the town will vote to purchase a chemical or some fire apparatus to fight fires in North Jay and vicinity, and to see what sum of money the town will vote to raise to pay for same.

ARTICLE 34

To see if the town will vote to continue the sidewalk on Jewell Street in Chisholm, and raise Five Hundred Dollars for the same.

ARTICLE 35

To see if the town will vote to raise One Hundred and Fifty Dollars to raise the catch basins on Main Street, Chisholm.

ARTICLE 36

To see if the town will vote to raise One Hundred and Fifty Dollars for the Jay High School Athletic Association.

ARTICLE 37

To see if the town will vote to accept a deed of approximately five acres of land, this land being the same used by the schools for the last five years as a baseball field, the land to be given to the town by the Jay Real Estate Corporation, subject to the following conditions, viz: The town to retain title to the same for the benefit of the schools.

ARTICLE 38

To see if the town will vote to raise the sum of \$300 in addition to the \$500 raised at our last annual town meeting for the purpose of buying and erecting an iron fence for the front side of Birchland Cemetery.

ARTICLE 39

To see if the town will vote to pay \$100 due on the cost of publishing High School paper, "The Clavis", in 1926.

ARTICLE 40

To see if the town will vote to continue building the sidewalk on the street leading from North Jay to Wilton and what sum of money the town will vote to raise to pay for the same.

ARTICLE 41

To see if the town will vote to build a sidewalk on Elm Street, Chisholm, said sidewalk to be built from Main Street to Pine Street, and see if the town will raise \$400 to pay for the same.

ARTICLE 42

To see if the town will vote to install an electric light on the Wilton road near the Leon Taylor residence.

ARTICLE 43

To see if the town will vote to install an electric light on Otis Street, Chisholm, or act thereon.

ARTICLE 44

To see what sum of money the town will vote to grant and raise to be expended and used for advertising the resources, advantages and attractions of the State of Maine.

ARTICLE 45

To see if the town will vote to have that part of the road leading from North Jay to Wilton discontinued, beginning at a point where the old road leaves the New Federal Road near the residence of James Patterson and extending to a point where it again enters the New Federal Road near the residence of Dell Adams.

ARTICLE 46

To see if the town will vote to accept the list of Jurors as revised by the Revising Board.

ARTICLE 47

To see if the town will vote to authorize the Treasurer to make temporary loans, said loans to be approved by the Selectmen and not to exceed the total tax levy of the preceding municipal year in which said loans are made, in accordance with the provisions of Section 62, Chapter 4, of the Revised Statutes of Maine, and all acts amendatory thereof and additional thereto.

ARTICLE 48

To see what sum of money the town will raise, to lay a sewer at North Jay, starting at Lester Tobin's residence, and extending down by the Maine and New Hampshire Granite Company's boarding-house, and act thereon.

ARTICLE 49

To see if the town will vote to raise the sum of \$200 for the separate maintenance of State Aid road.

ARTICLE 50

To see what sum of money the town will raise and appropriate for insurance.

ARTICLE 51

To see what sum of money the town will raise and appropriate for flags and flag poles.

ARTICLE 52

To see what action the town will take in regard to selling the Town Farm, selling the lumber, or building a barn on the same.

ARTICLE 53

To see what sum of money the town will raise for the above Article.

ARTICLE 54

To see if the town will vote to have the old road running through the land of Sumner Young to the old Richard Roberson place, so called, in Jay, discontinued.

ARTICLE 55

To see if the town will vote to transfer to the repair account, all of the following outstanding balances, and from this amount to pay the overdraw on the evening school account, thereby discontinuing these complicated accounts, viz:

The school wells account	\$ 97 04 balance
Medical inspection	52 67 overdraw
High school grading	7 67 balance
Cesspool	131 59 balance
Macomber Hill school	70 86 balance

ARTICLE 56

To see if the town will vote to raise some money toward leveling the Athletic Field at the new High School and if so how much.

The Selectmen give notice that they will be in session for the purpose of revising and correcting the list of voters at their office, March 12th, 1927.

Given under our hands this 26th day of February, A. D. 1927.

BERT H. FARRINGTON,
ARCHILLE E. GROLEAU,
CARL B. WRIGHT,

Selectmen of Jay.

FRANK E. FARNHAM,

Treasurer of Jay.

SCHOOL REPORT

TOWN OF JAY

1926

Report of Superintending School Committee

Feb. 25, 1927.

To the Citizens of Jay:

Your School Committee recommends that the following appropriations be made by the town for the expenses of the schools for the ensuing year:

For common schools, including text-books, supplies, etc.	\$20,000 00
High school	9,000 00
Repairs, appliances, insurance and miscellaneous items	4,000 00
High school equipment, seats for the gymnasium	500 00
Superintendent's account	750 00

You will notice that under the account for repairs your committee has combined the appropriations for insurance, special purposes, appliance and miscellaneous items. The object of this is to simplify the bookkeeping of the Board of Selectmen as well as the Superintendent of schools, for these accounts can much more easily be carried as a single account than as several separate ones.

JESSE BRIGGS,

CLINTON H. DOW,

FOSTINA P. FARNHAM,

Superintending School Committee.

Report of Superintendent of Schools

I submit, with pleasure, my second annual report to the citizens of Jay and to the Superintending School Committee. This report covers the physical, professional, and financial condition of your schools at the present time.

The report of the Superintending School Committee shows the recommendations which they have made, after careful and thoughtful consideration of all problems which could be anticipated for the running of the organization for the year just beginning.

The reports of the special departments will show what are the activities, objectives and accomplishments of these phases of our school system.

I think it will be profitable for the citizens of Jay to consider very carefully the different reports, for by this means you may come to know much about what is being attempted in your school system and how it is being managed and what is being done with the appropriations which you freely bestow for the support of your schools and for the betterment of your children.

In accordance with the vote of the town last March we reopened the school at Upper Chisholm and are running it on the same plan as formerly. We have two teachers there and the three upper grades. The first five grades are attending the Jewell St. school.

After New Year's, because of so many children in the first grade, it was thought best to employ another teacher and to divide this class. We are, therefore, now using all four rooms at the Jewell St. school.

It is unwise to expect the teachers at Jewell St. to handle as many children as can be handled in the other schools, for here we are face to face with the problem of teaching these children a new language. Very few understand any English at all when they enter school. This makes it doubly hard for teachers, for, of course, the very first thing to do is to teach them the language of the country. This I consider our most important work. These children are

rapidly growing up and leaving our schools for life, and above everything else they should know and understand our language. Few realize the handicap a child is under when he is turned loose to go to work if he cannot read and write and talk the English language.

In the first place our newspapers and magazines and books are sealed forever to them. This is a handicap that no living person can overcome, and a boy or girl starting out in life in this country will soon realize that he or she needs most of all a good understanding of the language of the country. I think it is fine to be able to talk more than one language. I do not misunderstand the people of Chisholm at all when they insist that their children be taught the French language and for this purpose send them to this parochial school. I wish to say this to them however, and I know it to be absolutely true, There is no danger of these children not knowing their own language and not being able to talk and read and write it, for they hear it continually in the home, read it in the papers, and talk it on the streets. What the French people should realize is that their children will be prevented from achieving their greatest success in life if they do not insist that they get the English language, and this cannot be done outside of our public schools.

If I desired my children to learn the French or German language I should send them to a French or German school. I should not expect them to learn these languages in an English school, so that they could ever handle them successfully. In the same way English will never be taught in a French school so that pupils can read and talk and write it with any degree of efficiency.

Several new teachers had to be secured this year. All are doing good work. All are Normal trained, most of them with successful experience. They seem to know their business, are conscientious, progressive and efficient. Our schools, I think are doing a good grade of work. Wherever the work is below what I consider standard, we are trying to strengthen it and to bring it up to standard. This has been done already in several cases with satisfactory results. This is a phase of the superintendent's duty which it is easy to slight because of the vast amount of routine work that must be performed. I am trying to give this part of my work the time and thought that it deserves for it is through this means that whatever progress we make professionally in our schools will be attained. In all cases I find the teachers ready and willing to coöperate with me, which is very gratifying.

The Janitors are doing good and satisfactory work in all cases for I hear of no complaints, and this is a pretty good criterion to go by.

Our transportation is being done well and satisfactorily. We transport children from the Blaisdell district and from Spruce Mountain to Bean's Corner, and pay Mr. Thompson transportation for his children to Jay.

The work at the High School is going well this year. In Mr. Rollins we have a very strong and efficient teacher. He is a great help to the school and is well liked by all. The same may truthfully be said of the other new teachers. I am pleased with the work at the school.

During the summer we completed the equipment of the Domestic Arts room by the making of two more cooking tables and a fine large sewing table, and by the addition of stools for the pupils. This room now will compare favorably with any room of its kind anywhere.

In the Physics laboratory our efficient janitor, during the summer, built two more combination Physics and Chemistry tables, making the furniture equipment of this room also complete. This room is now equipped as far as modern furniture goes in a very thorough manner.

We are now slowly equipping the laboratories with apparatus in order that our work may be up to the requirements for a school of this kind. Much apparatus is required to do the work in Physics and Chemistry.

During the summer the work of grading up the High School lawn was completed and it was seeded down. We had a fair catch of grass but on account of the dry summer and early fall we lost out on parts of it. We shall be fortunate if we succeed in getting grass all over the lawn in three years' time. We've made a good beginning, however, and have so far got enough grass on it to keep it from washing.

We also completed a coal pocket without the aid of any expert, other than Mr. Gilman and myself. This has a capacity of one hundred tons. It is built in a very strong and durable manner of reinforced concrete, anchored securely to the building. It is supported by three 7-inch I beams with tally posts eight feet apart, roof being made about seven inches thick and floor the same thickness, with walls 18 inches thick at bottom and 12 inches at top.

Because of the number of horses which are being used this year we added four new stalls to our barn, now we can accommodate nine horses.

During the winter we were instructed by the Selectmen to build a station at Jacks. This is completed and in use.

We equipped the Commercial room with new modern Commercial desks especially adapted for bookkeeping. We also provided three dozen new chairs for use in the school.

Four of the old typewriters were replaced by new ones, making this branch of the work more efficient.

The teachers' room has been equipped with a table, lounge and chairs and mirror.

The rooms at the High School where necessary were replastered and repainted. This work was done without cost to the town by Mr. Kerr, the contractor.

We have completed the modernizing of two more rural schools, namely the ones at Morse Hill and Clay Brook. New toilets, according to the State requirements, were constructed. Slate blackboards have been installed at Stone's Corner, Stubbs' Mills, Clay Brook and at Morse Hill.

The flag poles and equipment for nearly all of the schools were repaired, renewed and left in a satisfactory manner. We have in mind for this summer the erection of a flag pole at the new school on Macomber Hill and also a flag pole at the new High school.

Also we shingled the entire building at Riley and did some much needed repairing on the inside. During the fall rains we found that we must also shingle the back side of the Lake school and this was done.

At Bean's Corner the fence around the school grounds was repaired and renewed and about forty loads of gravel hauled in to grade up around the building where it was low and therefore nearly always wet and muddy.

At North Jay a new and larger chimney was built and a larger and more modern boiler installed to see if we could not do away with smoke and cold rooms. The heating situation had been very unsatisfactory here for several years. Thanks are due to Mr. Cole and Mr. Gould who spent considerable time in going over the situation here and in giving practical advice based on years of experience with boilers and steam plants, and especially to Mr. Gould, through whom we obtained our boiler at wholesale rates.

Coal was purchased direct from Portland where we paid \$5.85 per long ton f. o. b. cars for first quality navy standard New River coal.

A vast amount of work has been accomplished, improving the condition of the school buildings in the last two years. I am personally proud of the accomplishment. It would have been impossible without the able assistance of Mr. Gelinas, Mr. Jodrey and the School Board.

To sum it up so that we may get a bird's-eye view of it, so to speak. Five modern toilets with air tight cement vaults meeting new State standards have been constructed. Two school buildings painted. Three school buildings shingled. New slate blackboards installed in four rural schools. New stoves provided for two rural schools. A new chimney built at Stone's Corner. A new one also built at North Jay and a new heating plant installed. Seats refinished in several buildings, painting done inside throughout in three buildings. Equipment made and purchased to complete the new High school. The new garage and barn completed. Jack's Crossing completed. The lawn at High school graded. All the furniture moved to new High school was buffed down and refinished, and the building replastered last summer where it was needed.

With the erection of a flag pole at the High school and a few matters of minor importance I hope to complete the work there, and then I feel perfectly safe in saying that the citizens of Jay have a building as well equipped as you will ever need till the time comes for installing manual training. Your building is better equipped in its essential features than several city schools in the State.

Several have asked why we did not dedicate the new building. This is my answer. The building should have been completed in the early summer of 1926. It was not ready when school began. We worked there during the whole year, trying to get the building done.

Before the building was finished the plaster began to come off in several rooms, through no fault of anyone as far as I know. Mr. Kerr's contract, however, protected the town, and during the summer his crew was there doing the work over. The work went on all summer and into the fall, but we had been using the building so long we felt that the time for its dedication was over.

The work in the schools has gone smoothly this year. This I consider very largely due to the splendid spirit of coöperation which I find among the teachers.

Our outside work has also progressed smoothly due very largely to the helpful suggestions and hearty coöperation of the School Board, who have at all times been willing to listen to my suggestions and to help in carrying forward our program.

I wish at this time to thank our teachers for their efficient service, and the School Committee for their assistance, hearty support, and consideration. For without these no superintendent can accomplish any worthwhile result.

Very respectfully submitted,

ARNOLD M. SANBORN,

Supt. of Schools.

ARNOLD M. SANBORN,

Superintendent of Schools.

Report of High School Principal

To the Superintendent, Superintending School Committee, and Citizens of Jay:

I am pleased to submit for your consideration my fourth annual report of the Jay High School. The enrollment for the fall term was 84,—42 boys and 42 girls. The entering class numbered 28. The average attendance for the fall term was 75.4.

The scholars not absent for the fall term are Erland Adams, Deane Bowie, Dorothy Bryant, Louise Bryant, Edith Foster, Philip Jackson, Casimere Jacmic, Vetch Jacmic, Lora Laroche, Marion Macomber, William Scott, Arline Tweedie, Cauline Tweedie, Louise Tweedie, Rachel Thompson, Edgar Waite, Harry Waite, Silas Wright, Alice Purington, and Gertie Salmela. Scholars who acquire the habit of regular attendance will find their work easier in after years.

Owing to the change in train service last fall, school has begun at 8.30 and closed at 3.15, with one hour out at noon. None of the teachers and so few pupils go home for dinner that our school seems like the community high schools of the west. Study, music, practice in the gymnasium, and the activities of the kitchen department, all help make a varied and interesting day's work which needs to be seen to be appreciated.

ATHLETICS

Under normal conditions the athletic department of this school is self-supporting. This year we have done better than that, having paid our bills for this year and \$101.89 of last year's debt. Bills paid are as follows: Smith Casey Co. \$3.99, Em-Roe Co. \$9.96, John Macomber \$10.00, and James Bailey Co. \$77.94. We still owe the Bailey Co. \$94.04. Much of this last year's debt was contracted without our knowledge.

With no suitable field for practice in football, our team disbanded last fall after playing two games away from home. What is to be done in baseball is uncertain. In basketball our teams have been very successful. With no suitable grounds for football and baseball, we must expect to lose a few scholars each year to neighboring schools.

SCHOLARSHIP

The first and highest aim of a school should be scholarship. We feel that the citizens of Jay generally realize this for you have provided this fine building and costly equipment for our use. To counteract any tendency to discredit the school and the work done here, we submit a partial report from the Department of Education at Augusta which shows the quality of work in college of the four graduates of Jay High School who entered college in the fall of 1925, as compared with the work done by scholars from other schools sending four scholars to college that year.

HIGH SCHOOL IN TOWN OF	NUMBER ENTERING	NUMBER GRADES EARNED	HONOR	
	COLLEGE		GRADES GIVEN	NUMBER FAILURES
Brewer	4	22	5	1
Hallowell	4	20	2	1
Jay	4	22	10	0
Kennebunk	4	19	12	0
Millinocket	4	13	1	1
Newport	4	23	3	1
Rangeley	4	12	0	3
Standish	4	17	3	0
Washburn	4	20	6	2
Westbrook	4	17	7	0
Good Will H. S.	4	20	4	2
Oak Grove Sem.	4	20	7	1
Parsonsfield Sem.	4	20	2	7
Thornton Acad.	4	22	8	0
Wilton Acad.	4	15	0	2

This ought to convince any one that the boys and girls of this town are making good use of their opportunities.

The work of our teachers is very efficient, and at no time since I have been connected with the school has it been more harmonious.

Mr. Gelinas has demonstrated his reliability and fitness as janitor of the building; and I will add that it is a great help to me to leave the building at train time knowing everything will be all right.

I am glad to report a class of 16 Latin Beginners, and some in the class would do credit to any High school, taking a rank of over 95%.

The three scholars receiving prizes of a dollar each for best tests in Latin are Noel Gastonguay, Alice Purington, and Bernard Briggs; and in Algebra, they are Dorothy Morse, Russell Osgood, and Armand Dupont.

We feel that we owe much to friends and citizens for the success of the school.

Respectfully submitted,

A. L. DENNISON,

Principal.

Report of Home Economics Teacher

To the Superintending School Committee and Citizens of the Town of Jay:

It is with pleasure that I submit to you my first annual report of my work as Home Economics teacher.

Altogether too frequently in the past, a limited interpretation has been placed upon home economics education, and it has been thought of as cooking and sewing. Thus a great wealth of material has been excluded which is needed in bringing girls to a fuller realization of their responsibility in creating better homes.

Home economics includes a study of foods in relation to health, their composition, their use in the body, selection and buying, their preparation, the planning and serving of meals, preservation and storage of foods; a study of clothing problems from every angle, including the selection and purchase and care of ready made articles, construction of articles and garments, laundering, textile production, designing of garments; a study of problems that relate directly to the home and family, such as care and management of the home, care of the sick.

The Freshman class have as their first course, "Foods and Health." This includes, meaning and value of health, and the preparing of foods, for breakfast, and noon lunch. Also the school lunch box, which is so important to the children of our school. The last half of the year is devoted to sewing, the construction and choosing of simple garments.

The Sophomore class have, as their first course, "Foods and Marketing," in which they learn to plan, select, prepare and serve a simple, attractive, economical dinner. One-third of the year is devoted to home nursing; they have as a text-book, "Personal Hygiene and Home Nursing," by Louisa C. Lippit, R. N. The last term includes sewing, and here they may learn the truth of that rhyme, "a stitch in time saves nine," we must learn how to care for and mend our clothes.

The Junior and Senior classes work together and as their first problem they have the "Selection and Canning" of foods, advanced cooking. Through the winter term they have charge of the noon lunch, buying, planning, and serving. These lunches are served for five cents. The winter term is devoted to "Home Decoration."

To-day when we open a magazine we find its pages a glory of color and harmony. Nine out of ten people sit and admire the rooms illustrated that have been changed from a room of dull furniture and still duller draperies, to a cozy, attractive room. For the furniture has taken a new coat of some soft color and the cushions and draperies of some harmonizing color have changed it entirely.

It's pretty but "I could never do that kind of work" most people say, and that is what my Senior and Junior girls said when I suggested we bring some piece of furniture from home to be painted.

The collection brought was rather dilapidated and consisted of two chairs, a child's chair, a stand, and other small articles. They were very attractive when painted and stenciled.

There has been a splendid spirit of coöperation among the girls. And in order that you may realize the benefits derived from the course, the girls plan to give an exhibit the last of May. All articles made will be shown at that time and other features of the work explained.

I wish to express my appreciation for the interest and coöperation of parents and friends of the school.

Respectfully submitted,

BONNLYNN DARE VAN TASEL.

Report of Supervisor of Music

To the Superintendent, Superintending School Committee and Citizens of the Town of Jay:

My fourth annual report as Music Supervisor I am pleased to present at this time.

Throughout the schools the work has been carried on in very much the usual manner, primary grades having done sand table work, health posters, song booklets, etc., in connection with songs learned. In many schools teachers and pupils have coöperated in a bit of Nature Study by feeding birds.

Some schools have several kinds of birds added to their list of daily boarders at their window sills. One of the last reports to me was that a squirrel was visiting the window for crumbs left from children's lunch boxes.

To me this is quite a sight to see these little chickadees or possibly a handsome blue-jay or a sleek woodpecker busily engaged at the hanging suet on the outside of the window pane while on the inside the pupils are singing, sharpening pencils or writing scales.

Through the other grades good work is being done in school music as well as in musical theory and appreciation.

In Sept., 1923, the pupils were started in Hollis Dann Series of School Music Books. Formal sight reading begins in the second year where all grade pupils were started. Now the 7th and 8th grades are about through the Fifth Year Book, with only one more book to do before completing the work our system covers. Melody writing, interval study, and modulation are a few of the things they do commendably well. The Sixth Year Book should be completed by the 7th grade leaving the 8th grade for Junior High School Book. This, I shall be happy to see accomplished especially in the graded schools in a few years.

I wish to thank all the teachers for their good work and hearty coöperation, for after all, they are the ones who do the drilling and I give them the credit.

In the High School there are two thirty-minute periods a week for Chorus. Last October a Cantata was given at Jay and North Jay for the joint benefit of the Sophomore Class and the School Athletic Debt. At this \$32.10 was taken in. After \$1.50 was paid for use of Baptist Church a balance of \$15.30 was realized by each. \$10 from the Gym. Equipment Fund was added to the Athletic Debt amount making \$25.30 paid Mr. Dennison and \$15.30 Sophomore Class.

At present the Chorus is preparing songs to be used at the Central Maine Music Festival, where 500 voices will take part, to be held in Lewiston May 6th. The same music will be used for graduation.

The orchestra has played for all school activities so far, also played several numbers at the Jay Grange where they received much praise, especially from outside guests. They are now preparing a very heavy program to render at Lewiston with a group of at least 125 other H. S. players from central Maine. We certainly need the good wishes of all the townspeople to put over such an undertaking, and for this we ask, for both Orchestra and Chorus.

The Orchestra and Mandolin Club both plan to play for the Junior and Senior Play at the end of the term.

I wish to express my thanks to all who coöperate and assist in any way in giving Jay the best music we can.

The following is the report of the Gymnasium Equipment Fund:

Collected by Elizabeth Pomeroy	\$109 50

Balance on hand	\$9 14

Respectfully submitted,

ELIZABETH P. POMEROY.

Report of Franklin County Public Health Nurse

FOR THE TOWN OF JAY

FROM FEBRUARY 1ST, 1926 TO FEBRUARY 1ST, 1927

Jay has had visits from the Public Health Nurse during the months of March, April, May, June, July, October and November in nearly every district.

There have been thirty-three visits to schools at which 302 were given individual inspection, 140 of whom had some condition which might be corrected. There were twenty-one home visits in the interest of corrections. Several children have been accompanied to hospital, doctor, oculist, etc. In instances where the parents were unable to finance glasses, or special treatment, the American Red Cross has furnished the funds.

Two Child Welfare Conferences were held: one in Jay Village at which sixteen babies were given physical examination by Dr. Rand of Livermore Falls, and one in Riley where thirteen babies were given similar attention by Dr. Thos. Croteau of Chisholm. Health literature on baby and pre-school child care was distributed and talks with the nurse in regard to the proper fulfilment of the doctor's advice was given. An effort was made to have a similar conference in North Jay but it had to be postponed indefinitely on account of a few cases of contagious diseases which made it unwise to have the children gather in groups; however, many people from North Jay attended the Child Welfare Conferences held in Wilton village. A Child Health Contest held in Farmington June 8, included babies all over Franklin County, a baby from Chisholm being winner of the first prize. The County Wide Chest and Asthma clinic was responded to from many of this town.

One of the outstanding benefits of this year have been the benefit derived from treatment at the Children's Hospital of a girl being badly crippled who became able to walk without aid of crutches, which she had used for many years, and is improving every day. Arrangements were made to send one patient to the State Sana-

torium, where she finally died. Observation and care have been rendered to the family to avoid further spread of the disease.

A few cases like measles and whooping-cough have been prevalent but through coöperation with the teachers and parents have not caused any serious epidemic.

Schools that were not visited during the above period will be the first to receive attention in 1927 as soon as conditions allow.

A bulletin was sent to each room from the County Nurse's office during the months when it was not possible for personal visits. These bulletins contained Health Games, Health Songs, Health Quotations, etc., designed to assist the teachers in keeping up the enthusiasm for health among their pupils.

A Health talk to adults was given at the North Jay Grange. Nursing care was given to a mother in the Macomber Hill district by assistant nurse, and visits to homes relative to infant and preschool welfare have also been made. Conference has been held with Selectmen in the interest of coöperation with the County Health work as for health among their pupils.

The conditions in the schools on the whole seemed to be very much better than in the previous year, and the children are very much interested in knowing how to grow up to be healthy and strong. A great deal of credit is due to the coöperation of the teachers and parents as well as the children. Aside from the actual home visits, visits have been made to the office and interviews with the nurse have been held in the interest of promoting health. It is hoped that Jay feels that their appropriation for this work has been very much worth while and that it will continue in the future.

It is advisable for each town to have representative committee to confer with the Nurse in regard to needs of its community. We have a representative in Jay Village, one in Riley and one in North Jay, but would recommend that the town select someone to represent them for 1927.

Respectfully submitted,

I. C. JOHANSEN, R. N.,

*Director Franklin County
Public Health Nursing Service.*
